**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: In the Drawings, Fig. 1 has been labeled as --PRIOR ART--.

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a display device comprising an active type of light emission drive circuit which includes a switching diode element which turns ON by a potential difference between said ON command pulse or scan pulse and said data signal when said ON command pulse or scan pulse is supplied (claims 1 and 9). The remaining claims 2-8 and 10-17 are allowed by virtue of their dependencies on the independent claims. Hence, the examiner has allowed claims 1 through 17.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Okuyama et al., Patent No. 6,556,176 ; Ishizuka, Patent No. 6,587,087 ; Sekiya et al., Patent No. 6,583,775 ; Yamada et al., Patent No. 5,990,629.

None of the above patents discloses the switching diode element as recited.
